

Spring 2024 CNA Tech Workshops

Program Goal

You are being asked to be a participant in a voluntary research study about broadband equity. The purpose of this study is to understand the broadband internet options and needs you have for your professional and personal life.

Program Benefits

1. Receive a brand-new laptop and can keep the device upon completion of the program.
2. Training on complementary topics for CNA students in work transition.
3. Direct one on one support with technology needs and other support.

Requirements

All participants are required to attend scheduled group workshops with a University of Illinois tutor and actively participate in the sessions.
